Week 5

Open Street Map (OSMNX)

Course zoom link for Summer Quarter 2025

July 29, 2025

Let's pull

- First, grab the course material, and "pull" it into your JupyterHub space:
- Git related
- Note that you have to do this at the start of every lecture to get the latest material.

*Note that this course will be recorded🎥

Hands on Lab

Lab: Part 1

Open Street Maps

- Break

Lab: Part 2

Project time!

Midterms (Materials due 6pm Tuesday, August 5th the day of class!)

Upload your pre-recorded presentation to your Google Drive, share the link to your GitHub along with your notebooks and slide deck.

- Pre-recorded presentations (we will not meet)
  - 8-10 minutes per project
  - You can use any form of visual aids, including powerpoints, google slides, spreadsheets, and/or JupyterNotebooks
  - Prepare and rehearse
  - Most importantly, tell a story, and convey why this is an important issue that warrants our attention

Presentation guidelines

- Tips for a good presentation:
  - Images are worth 1000 words (i.e. minimal use of bullet points)
  - Let your visuals narrate the story you tell, not text or bullet points
  - Talk to the audience, not your computer or the screen
  - Show your passion!

Submit your midterm materials here

Peer feedback

- Provide constructive feedback to one project's recording, notebooks, and slides
  - Be specific in what you liked about the project presentation
  - What visuals, charts, and maps stood out, and why?
  - What could be improved?
  - Were there any analyses or libraries used that you are curious about?
