

Week 5

Open Street Map (OSMNX)

[Recurring Zoom link](#)

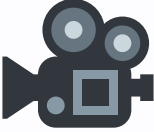

April 28, 2025

Let's pull

- First, grab the course material, and "pull" it into your JupyterHub space:
- [Git related](#)
- Note that you have to do this at the start of every lecture to get the latest material.

*Note that this course will be
recorded 

Hands on Lab

Lab: Part 1

Open Street Maps

- Break

Lab: Part 2

Project time!

**Midterms (Materials due 6pm Tuesday,
May 5th the day of class!). Please follow
midterm directions**

Upload your GitHub links of your notebooks and slide deck.

- Live presentations during class time on May 5th, 2026
 - 8-10 minutes per project; 1-2 minutes feedback
 - You can use any form of visual aids, including powerpoints, google slides, spreadsheets, and/or JupyterNotebooks
 - Prepare and rehearse
 - Most importantly, tell a story, and convey why this is an important issue that warrants our attention

Presentation guidelines

- Tips for a good presentation:
 - Images are worth 1000 words (i.e. minimal use of bullet points)
 - Let your visuals narrate the story you tell, not text or bullet points
 - Talk to the audience, not your computer or the screen
 - Show your passion!

Submit your midterm materials by clicking [this link](#)**

Peer feedback

- Provide constructive feedback to one project's recording, notebooks, and slides
 - Be specific in what you liked about the project presentation
 - What visuals, charts, and maps stood out, and why?
 - What could be improved?
 - Were there any analyses or libraries used that you are curious about?
